

# Virtual Geoscience Conference 2018

## Exhibition and Sponsorship Packages

The third Virtual Geology Conference (VGC) will be held at Queen’s University in the beautiful limestone city, Kingston, Canada, August 22-24, 2018. VGC provides a meeting place for researchers and industry members at the forefront of technological developments and latest applications of geomatics and visualization tools in the geosciences. The conference will highlight technological advancements and the latest applications of geomatics and visualization tools to a broad range of geoscience problems. We offer corporations exhibition booths and sponsorship packages described in the following pages.
